

Clockify manual

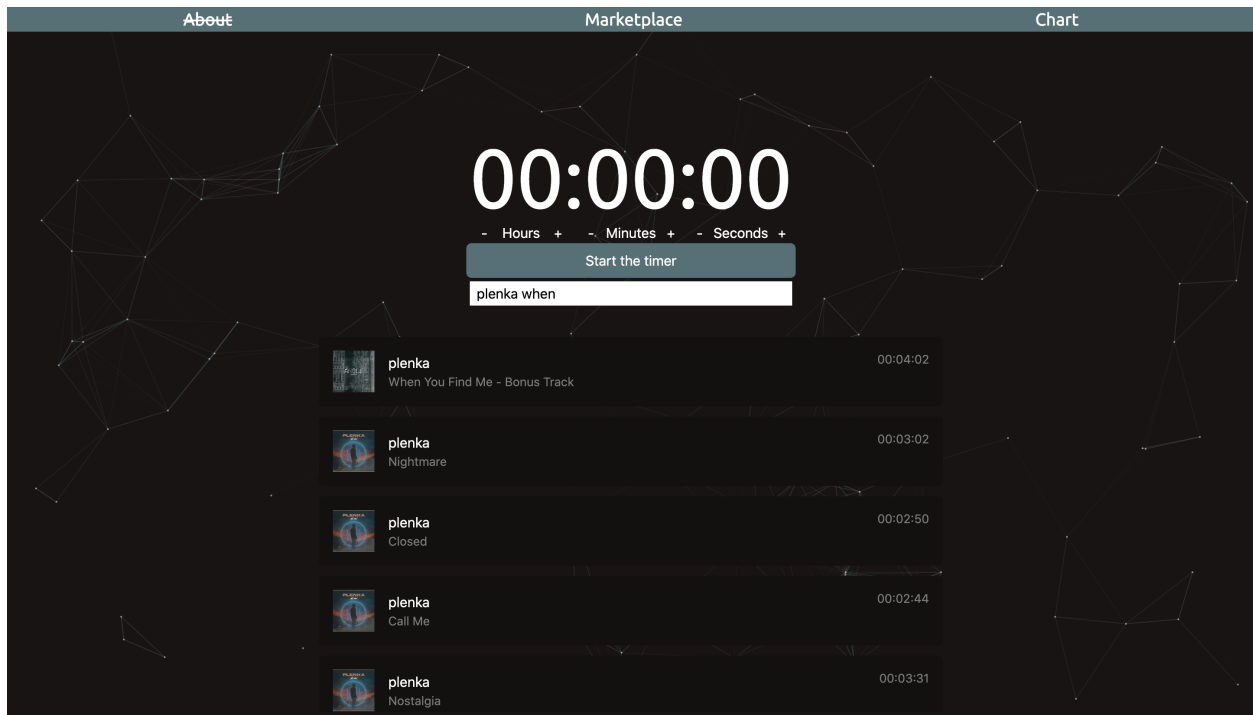

At the start, you need to sign in using your Spotify account.

After that, you can see a menu that has a timer and a button labelled “Start the timer”.

Search for songs using the form. Click on the one you want to play after time is up.

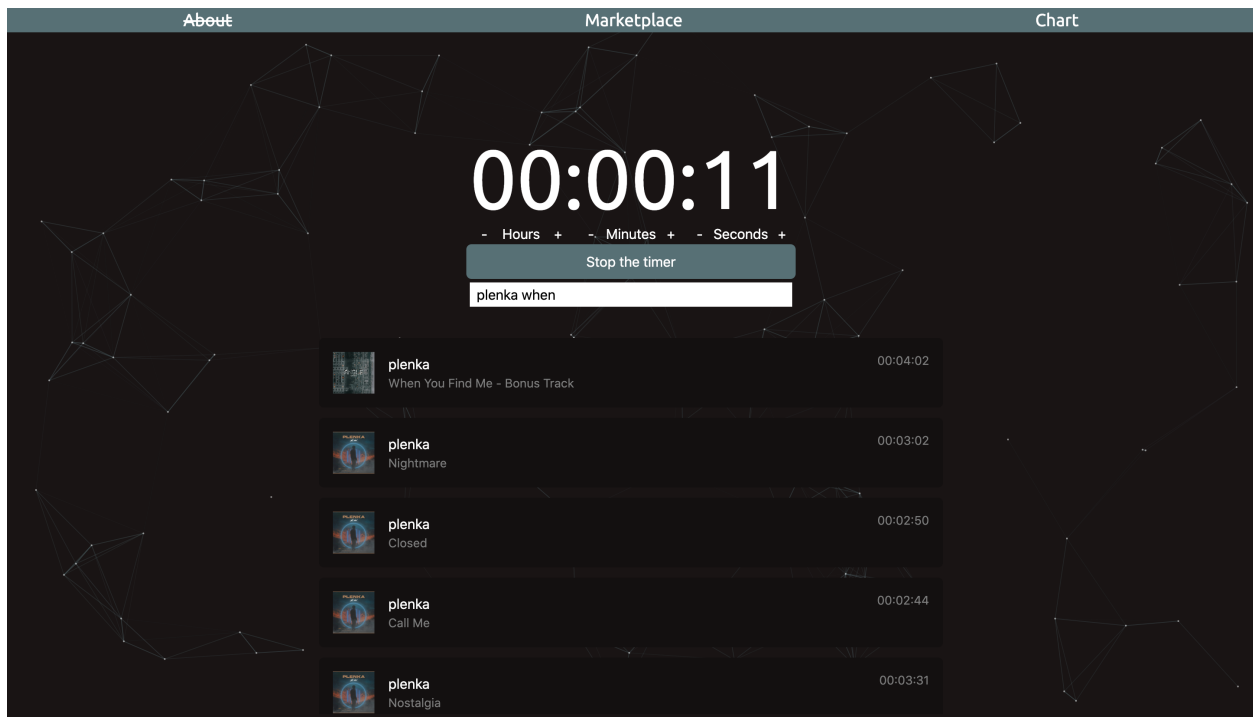

Suppose, I want to play ***Plenka - When You Find Me***:

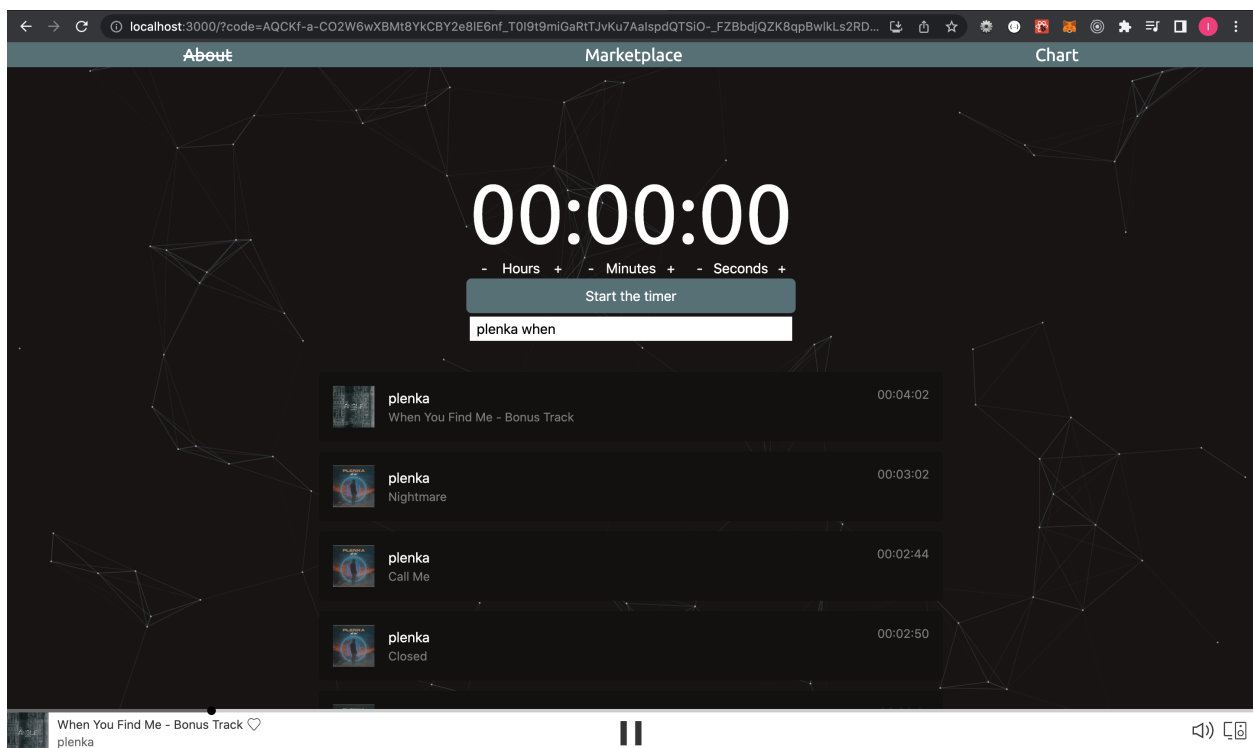

Use the  and  buttons in order to modify the time. Then press the “Start the timer” button.

The music will be played after time is up.

While the timer is running the screen will look like:

Once the timer is up the screen will look as below:

Enjoy your music and get ready for the next sprint!
